ON DOWNTOWN

DANVILLE *I can't remember when downtown wasn't a part of my life. Some of my favorite memories have been the times my mom and I would come downtown for lunch at the Nook. After lunch we would stroll the mall, shop and my mom always allowed time for me to play on the big green turtle! Whatever happened to that turtle? Today - I own my own store downtown.*

There's music in the streets and new shops, new business and new energy everywhere. Thanks to Kelly and other members of Downtown Danville, the plan for an exciting downtown is becoming a reality right before our eyes. But don't take our word for it...come see for yourselves.
